Feb 2017

PROJECT SUMMARY

Eastern Guruma and Brierty have formed a Joint Venture to undertake construction of a Waste Fines Storage facility at Marandoo Mine for Rio Tinto. The project comprise of bulk and detailed earthworks, modifications, extensions, dismantling and reinstating of underdrainage plant and equipment, waste fines and decant pipework relocations and pumping systems.

Eastern Guruma will be providing plant and equipment including management personnel and support in project operations. Eastern Guruma will source Aboriginal candidates to encourage further development of Aboriginal people within the civil and mining industry.
