CLIENT

Fortescue Metals Group

PROJECT

Solomon Mine Kangi Camp
Landscaping

LOCATION

Pilbara, Western Australia

VALUE

AU \$3 million

START DATE

July 2014

FINISH DATE

Ongoing

PROJECT SUMMARY

Eastern Guruma was contracted to design and construct landscaping for Kangi Camp at Fortescue Metal Group's Solomon Mine in 2013. This project required earthworks and landscaping for camp recreation areas and surrounds.

The landscaping team is now responsible for ongoing maintenance of camp grounds including lawns, trees and gardens, irrigation, drainage and waste management at Kangi Camp, firebreaks around communication towers and maintenance of other areas at Solomon Mine on request.
